WORKSHOP DETAILS:

The workshop begins with lunch in Desert Hot Springs Saturday February 3rd, 12 pm; concluding 4:30 pm Sunday February 4th following the Sound Bath. An optional dinner follows at Pappy and Harriets in Pioneertown Sunday 5:30 pm.

As many of you know, the Integratron is booked solid several months in advance due to their overwhelming popularity.

We will also have time to conduct a special blessing ceremony on the grounds of the Integratron prior to the Sound Bath.

THE INTEGRATRON:

George Van Tassel, an aerospace engineer, created the Integratron many years ago as an accelerator of human growth and awareness, helping us to advance our consciousness beyond our years. Howard Hughes was a main benefactor of this project, having employed Van Tassel at Hughes Aircraft for many years. A wooden dome containing no metal, the end result is resonant sound perfection atop a geomagnetic healing vortex in the Mojave desert, a modern icon to Tesla energetic principles. Nearby Giant Rock was very important to the Native Americans, who adorned it with the Sign of The Scorpion, designating a place of sacred energy and ceremony.

The Sound Bath is conducted in the top of the dome with the crystal bowls played in sequential order to enact changes in the chakras and energy field, root to crown. The Sound Bath is unique, unlike anything many people have experienced

The Integratron has been featured in many print publications and broadcast forums: the New York Times, the LA Times, Vanity Fair magazine, the Atlantic, Huell Howser's "California Gold" and Anthony Bourdain's "No Reservations" program on Travel Channel.

The energetic vortex effect is evident on the grounds of the Integratron, and provides its own special boost to the your inner work and goal setting.
